

Dark Cygnus Working Packages

(as of CYGNUS 2011 ... and most probably as of CYGNUS 2013)

KISEKI NAKAMURA for character

-WP0: web site and logo, mail list

-WP1: quenching and gas parameters

Daniel Santos and Daniel Snowden-Ifft

DAN SNOWDEN-IFFT for WIKI

-WP2: directionality and head-tail sensitivity

Jocelyn Monroe and Kentaro Miuchi

see slides

-WP3: backgrounds and background rejection, isotropy issues, muon vetos, depth

Neil Spooner and Kentaro Miuchi see slides

**Details: to be
posted on WIKI**

-WP4: physics reach, includes astrophysics, uniqueness, signal identification

Frédéric Mayet and Sven Vahsen

see slides(Frederic), draft by Sven

-WP5: readout techniques

James Battat and Igor Irastorza

see slides

**progress report by the
end of September**

-WP6: application to neutron detection and other physics

Daniel Santos and Neil Spooner see slides
